

INSTALLATION INSTRUCTIONS

**KEEP ANTENNA AND CABLES AT A SAFE DISTANCE FROM ANY POWER LINES.
TO PROTECT YOUR ANTENNA AND RECEIVER FROM LIGHTNING DAMAGE, ENSURE YOUR EQUIPMENT IS GROUNDED.**

PACKAGE CONTENTS

- 1 x Antenna
- 4 x #10 Flat Washer
- 1 x 1/4"-20 U-Bolt
- 2 x 1/4"-20 Lock Nut
- 4 x 10-32 Lock Nut
- 1 x Mast Clamp
- 2 x 5/8" O.D. Flat Washer
- VSWR test result

INSTALLATION OPTIONS

Panel Mounting

- Mount the antenna to the desired location using 4 protruding #10-32 screws, 4 flat washers, & 4 lock nuts.
- Protruding screws #10-32 are equally spaced on a B.C.D. of 2.655" & can accommodate max. plate thickness of 1/4".
- Attach the feed line to the antenna connector and weatherproof all connections appropriately.

Mast Mounting

- Mount the antenna to the mast using a mast clamp, U-bolt, 2 flat washers, & 2 lock nuts.
- Mast clamp can accommodate mast size range from \varnothing 1 1/4" to 1 1/2".
- Attach the feed line to the antenna connector and weatherproof all connections appropriately.

Bracket Mounting (Sold Separately, Part # 642224)

- Attach the mounting bracket to protruding #10-32 screws and secure it with #10 flat washers and 10-32 lock-nuts.
- Attach the bracket to the mast using a mast clamp, U-bolt, 2 lock washers, & 2 nuts.
- Mast clamp can accommodate mast size range from \varnothing 1 1/4" to 2.0".
- The bracket can be mounted directly to a flat surface held by at least 2 screws (screws not provided). The holes clearance is \varnothing 0.26"; use the appropriate screw size & length to secure the antenna in place.
- Attach the feed line to the antenna connector and weatherproof all connections appropriately.
